Pol. Ind. El Tempranal de Fuenlabrada,
28942 Fuenlabrada, Madrid, Spain

DAYA SANI-WARE MFY. LDT. se fundó en Shantou (China) en el año 2000 y sentó una base en Huaian (China) en el año 2018.

Gracias a todos los esfuerzos realizados en los últimos 21 años, tenemos clientes en 26 países proporcionando a **DAYA & IBERDAYA** una reputación global en los mercados internacionales del sector del baño.

Con un área de **48,000 m²** y el último equipamiento técnico, basados en la certificación CE y la capacidad de producción de 12000 piezas al mes, suministramos rápidamente la entrega a nuestros clientes de todo el mercado europeo.

Como empresa dinámica nos esforzamos por proporcionar un servicio de fabricación a medida. Con una visión nítida del mercado, DAYA sigue la última tendencia industrial, creando productos adaptados al mercado actual.

Como proveedor, tenemos la oportunidad de crear nuestras propias líneas de productos, así como en los proyectos para terceros.

Diseñamos y fabricamos productos de primera calidad que ofrezcan opciones para todos los mercados. DAYA, un fabricante profesional que se dedica a la tecnología, innovación y alta calidad.

En el año 2009 nace IBERDAYA como filial de DAYA en España para abastecer el mercado de Europa Occidental, contando para ello con un almacén regulador en Fuenlabrada (Madrid) donde estoca los productos provenientes de su empresa matriz. Actualmente IBERDAYA está consolidada como una de las empresas referentes del sector del baño.

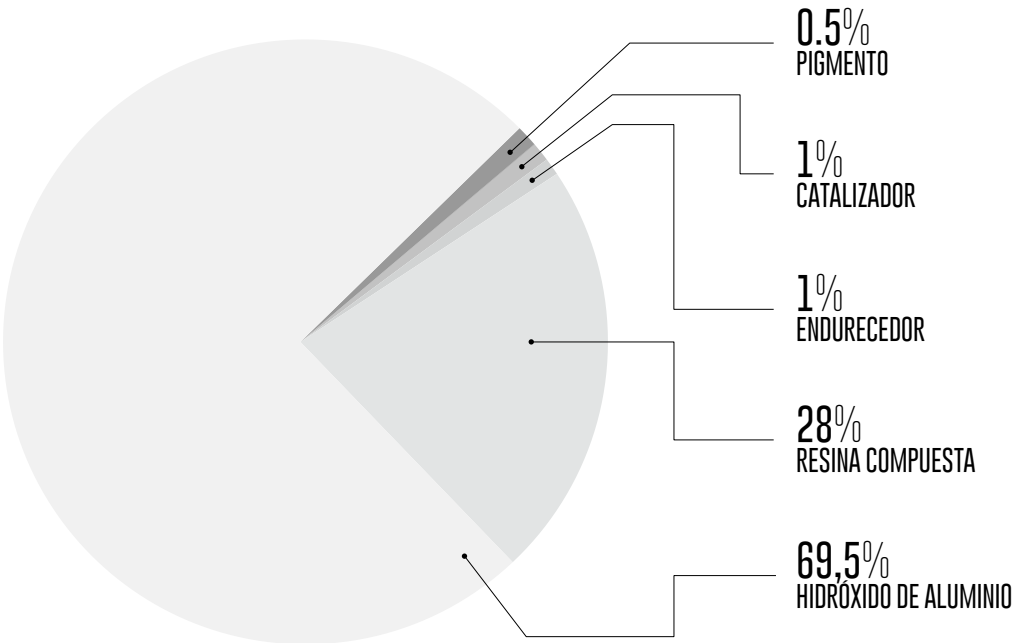

COMPONENTES DEL MATERIAL **SOLID SURFACE**

El **Solid Surface** se obtiene principalmente a partir de resinas y cargas minerales. Técnicamente el producto debe mantener la misma composición en todo su volumen y no debe contar con la aplicación de resinas en gel coat. Es un material de infinitas posibilidades gracias a su maleabilidad, flexibilidad y que ofrece numerosas aplicaciones que lo convierten en un material único.

Entre sus cualidades mas valoradas encontramos la agradable sensación táctil del material, su calidez y suavidad, sus propiedades anti-bacterianas o su renovabilidad, sin olvidarnos de la facilidad para crear formas especiales y singulares. Además debemos añadir que es un material que puede reciclarse al 100%.

Desde **Iberdaya** fabricamos nuestros lavabos y encimeras con las más altas calidades en todo su proceso, cuidando el detalle y, siempre, con las materias primas que nos garanticen un producto de máximo nivel.

CERTIFICADOS

Todos nuestros productos cumplen con los certificados CE que garantizan la alta calidad y el cumplimiento de las normas internacionales. Los productos se realizan de acuerdo con las normas de seguridad internacionales, incluyendo el control de las materias primas y el proceso de producción.
